SHADOWRUN 2ND EDITION — QUICK REFERENCE

DICE & TESTS

Success Test: roll dice = rating vs TN; each die ≥ TN is a success.
Rule of One: 1s fail; all 1s = disaster. **Rule of Six:** TN > 6, re-roll 6s and add.
TN by difficulty: Simple 2 · Routine 3 · Average 4 · Challenging 5 · Difficult 6–7 · Strenuous 8 · Extreme 9 · Nearly impossible 10+.
Taking the time: base time ÷ successes. **Defaulting:** +2 TN per circle along the Skill Web (to a skill or an Attribute).
Karma Pool (refreshes each encounter), 1 pt each: re-roll all failed dice (each repeat on that test costs 1 more) · make all-1s a plain failure · add a die (max = base dice) · buy a success (needs a real success; the point is gone for good).

COMBAT TURN

1. **First turn only:** everyone's pools refresh (not if surprised).
2. **Initiative** = Reaction + Initiative dice. Injury modifier comes off Reaction first; Reaction 0 = no actions this turn.
3. **Act, highest total first.** Acting character's pools refresh → declare → resolve → Initiative −10. Above 0 = acts again 10 phases later.
4. Nobody left to act → new Combat Turn. Unused pool dice carry until your first action.

Same phase: declare lowest first, resolve highest first. Ties: higher adjusted Reaction, then natural Reaction, else simultaneous. **Order:** astral, then Matrix, then physical.
Delay: Free Action; step in at a later phase's declaration; carries over turns; using any pool dice breaks it.
Surprise: all roll Reaction vs 4 (waiting ambusher −2). Act only against those you out-succeed. Beat nobody and someone beat you: no actions at all for 10 phases.

ACTIONS

Each phase: 1 Free + either 2 Simple or 1 Complex.
Free: call a shot · change smartgun mode · delay · drop prone · drop object · drop sustained spell · eject smartgun clip · gesture · observe · speak a word.
Simple: change gun mode · stand up / lie down (wounded: Willpower 2 to stand) · command spirit · fire SS/SA/BF · insert or remove clip · observe in detail · pick up / put down · quick draw (Reaction 4, +2 not holstered, then fire) · ready weapon · shift perception · take aim (−1 TN each, max ½ skill) · throw · use simple object.
Complex: astral projection · cast spell · melee / unarmed attack · fire full-auto · fire mounted / vehicle weapon · reload non-clip weapon · summon nature spirit · use complex object · use skill.
Move: walk Quickness m (+1 TN, rough ground +2). Run Quickness ×3 (dwarf, troll ×2), +4 TN to everything; run in one phase per turn.

DICE POOLS

Refresh at the start of each of your actions. **Combat** = (Qui+Int+Wil)÷2; attack max = skill, resistance unlimited; heavy armor −1 per Ballistic over Quickness. **Magic** = Sorcery (+ power focus); spell max = Magic, Drain unlimited, never Conjuring. **Hacking** = Computer + Reaction (+ response increase). **Control** = Reaction (VCR).

DAMAGE

Level	Boxes	Injury TN	Init
Light	1	+1	−1
Moderate	3	+2	−2
Serious	6	+3	−3
Deadly	10	unconscious / near death	

Damage adds up. Modifiers: worst level in each column; Stun and Physical stack. Stun past 10 spills into Physical and knocks you out. Physical past 10: +1 box per 10 min untended; dead past 10 + Body. Injury TN does not apply to resistance tests. **Stun recovery:** Body or Wil vs 2 (+ injury), 60 min ÷ successes per box, resting.

RANGED COMBAT

ATTACKER
1. Range to target → base TN (table below).
2. Add situational modifiers (table).
3. Roll skill + Combat Pool (max skill) vs TN. Count successes.

DEFENDER
4. Roll Body (+ dermal) + remaining Combat Pool vs **Power − Ballistic armor**.

RESULT
5. Attacker ahead: +1 Damage Level per 2 net. Defender ahead: −1 per 2 net (below L = none). Tie = base damage. Defender's **Combat Pool successes alone** beat attacker's = clean miss.

Knockdown: Body vs ½ Power; need more successes than L1 / M2 / S3. None = prone; some = stagger 1 m. Deadly always knocks down. **Called shot:** Free Action, +4 TN, +1 Damage Level (SS/SA/BF only).

WEAPON RANGES (METERS)

Weapon	Short 4	Med 5	Long 6	Extr 9
Light / hold-out	0–5	15	30	50
Heavy pistol	0–5	20	40	60
Taser	0–5	10	12	15
SMG	0–10	40	80	150
Shotgun	0–10	20	50	100
Assault rifle	0–15	40	100	250
Sporting rifle	0–30	60	150	300
Sniper rifle	0–40	80	200	400
LMG	0–20	40	80	150
MMG	0–40	150	300	500
HMG	0–40	150	400	800
Assault cannon	0–50	150	450	1,300
Grenade launch.*	5–50	100	150	300
Missile launch.*	20–70	150	450	1,500
Bow (Str Min)	Str	×10	×30	×60
Crossbow L/M/H	×2/3/5	×8/12/15	×20/30/40	×40/50/60
Throwing knife	Str	×2	×3	×5
Shuriken	Str	×2	×5	×7

Top of each band shown. *Minimum range. Bows/crossbows: × Strength Minimum (below it, +1 TN per point); thrown: × thrower's Strength. Scope: one band closer per rating.

RANGED MODIFIERS

SA second shot	+1	Target running	+2
Each burst (BF)	+3	Target stationary	−1
FA, per round	+1	In melee, per foe	+2
Heavy recoil	×2	Walking (rough)	+1 (+2)
Blind fire	+8	Running (rough)	+4 (+6)
Partial cover	+4	Smartlink	−2
Each extra target	+2	Goggles / laser	−1
Second firearm	+2	Aim, per Simple	−1
Wounded	injury	Recoil comp / gyro	−rating

Heavy = MMG, HMG, shotgun: double *uncompensated* recoil. Second firearm: pistol/SMG only, no smart/laser bonus, shares recoil. Laser: 50 m max, useless in mist, smoke, fog, rain. Gyro offsets recoil and movement.

Visibility	Normal	Low-light	Thermo
Full darkness	+8	+8/+8	+4/+2
Minimal light	+6	+4/+2	+4/+2
Partial light	+2	+1/0	+2/+1
Glare	+2	+4/+2	+4/+2
Mist	+2	+2/0	0
Light smoke/fog/rain	+4	+4/+2	0
Heavy smoke/fog/rain	+6	+6/+4	+1/0

Split: electronic vision / natural. Thermal smoke: as smoke for thermo.

FIRE MODES & AMMO

SS: one shot per phase. **SA:** Simple each, two per phase, 2nd at +1. **BF:** Simple, two bursts max, +3 recoil per burst; Power +3 and +1 Damage Level. A 2-round burst: Power +2, no level, +2 recoil. **FA:** Complex; declare rounds per target (min 3); +1 recoil per round fired that phase; Power +1 per round, +1 level per 3 rounds (max D). Walking fire wastes 1 round per meter between targets (not smartguns). Each burst/shot is its own test and its own Combat Pool allocation.
Gel: Power −2, Stun, Impact armor, knockdown TN = Power.
Explosive: Power +1; all 1s = misfire hits the shooter.
Flechette: +1 level vs unarmored; vs armor use the higher of 2×Impact or Ballistic.

MELEE COMBAT

ATTACKER
1. Combat skill + Combat Pool vs **TN 4** + modifiers.

DEFENDER
2. Own Combat skill + Combat Pool vs **TN 4** + the same kinds of modifiers.

RESULT
3. More successes **hits** (tie: attacker). The defender can win and hit back.
4. Winner: +1 Damage Level per 2 net successes.
5. Hit character: Body vs **(Str + weapon) − Impact armor**; −1 level per 2 successes.

Each extra friend on your side	−1 (max −4)
Each extra friend they have	+1 (max +4)
Reach longer / shorter, per pt	−1 / +1
Each extra target	+2
Superior position · opponent prone	−1 · −2
Visibility: half table (full dark +8)	table
Wounded · subduing (Stun only)	injury · +2

Trolls +1 Reach. Unarmed (Str)M Stun. **Full defense** (optional): no pool on your attack test; clean miss if your pool successes alone beat theirs. **Knockback:** Body vs attacker's Str, need more than L1/M2/S3; some = step back 1 m, none = prone. **Stun baton / taser:** Impact armor halved; stunned (+2 TN) for Power − ½ Impact − successes (Body or Wil vs 4) turns.

SPELLCASTING (COMPLEX ACTION)

Declare: split Magic Pool between the spell, Drain, and Spell Defense.
1. **Target in sight** (own eyes, optics OK, no cameras). Base TN: living = **Willpower** (mana) / **Body** (physical). Objects (physical only): natural 3, low-tech 5, high-tech 8, highly processed 10+. Ranged damaging manipulation: 4.
2. **Modifiers:** injury, cover, visibility; +2 per spell you sustain; +2 per stacked spell. Touch spells: injury only. **Warded target:** mana barrier +1 per 2 Force; circle or lodge +1 per 2 rating. Doesn't apply to spells from whoever made it.
3. **Cast:** Force + Magic Pool (max Magic Rating). No successes = fizzle; all 1s = Drain TN +2.
4. **Resist** (R spells): target rolls Body/Wil + Spell Defense (or own Magic Pool) vs **Force**. Damaging manipulation = Damage Resistance like a gun (armor, Combat Pool).
5. **Result:** net successes. Tie = minimum effect. Combat spells: +1 Damage Level per 2 net; armor ignored.
6. **Drain:** Willpower + Magic Pool vs **Force ÷ 2 (down) + Drain modifier** (+2 per stacked spell), no situation modifiers. −1 level per 2 successes. Stun, or **Physical if Force > Magic**.

Area: radius = Magic m, everyone in it; one roll vs each target. Withhold 2 dice: −1 m; 1 die: +1 m (max Force dice). **Limited range** (sense spells): Force vs 4, successes × Magic m. **Sustaining:** +2 TN to everything per spell, max = Sorcery. **Multiple targets:** split Force dice, one Drain test each. **Noticing a cast:** Int vs 2×(Magic−Force). **Exclusive:** effect at Force +2, Drain at real Force; fetish +1 reusable / +2 expendable.

SUMMONING & SPIRITS

Nature spirit (shaman): Complex Action, only in its domain, one at a time. Conjuring (+ totem, spirit focus) vs **Force**; successes = services; 0 = no spirit. Leaves at sunrise or sunset.
Elemental (mage): hermetic circle + conjuring library ≥ Force, materials 1,000¥ × Force, a source (fire, water, air, earth), Force hours. Conjuring (+ spirit focus) vs **Force**; successes = services. Bound max = Charisma.
Drain (always, even if nothing comes): **Charisma** (+ totem, focus) vs **Force**; −1 level per 2 successes. Magic Pool never helps conjuring.

Spirit's Force	Drain
Less than ½ Charisma	L Stun
Up to Charisma	M Stun
Over Charisma	S Physical
Over 2 × Charisma	D Physical

- **Knocked out by Drain:** nature spirit leaves; elemental goes free, rolls Force vs 4: any success it flees, none it attacks the mage.
- **Elemental services:** aid sorcery (Force dice: fire combat, water illusion, air detection, earth manipulation, never health) · aid study · sustain a spell (1 turn per Force) · physical · remote. Call: Complex, no spells sustained. Command: Simple. Each 24 hours uses a service.
- **Spirit Initiative:** Reaction +20 astral / +10 manifest, 1D6.
- **Mundane attacks on a manifest spirit:** Willpower replaces skill, no pools; vs guns and blasts it has 2×Force armor. Magicians may resist spirits with Conjuring.
- **Banishing** (Complex, as exclusive): Conjuring (+ Charisma if you summoned it) vs Force; spirit rolls Force vs your Magic; per 2 net the loser drops 1 Force or 1 Magic.
